It is strategically important to increase the market competitiveness and to drive their business performance by diversifying their business. To be able to do that, they need the information about their business performance, competitors and market trends from the market and the other providers as well. US is also losing their business since it cannot compete with market and others. In addition, the company has to be aware of market changes and changes in technology to suit their business needs. So, they need accurate and reliable information about the market to survive. To become competitive and to respond to market changes, they need their products, services, information and other IT and non-IT business resources should be easy to use, available and most important, ba244e880a
