Office 365 Mac 2018 Crack Full Version,.Effects of flutamide on selected endocrine and gonadal parameters in silver carp *Ctenopharyngodon idella*. The antiandrogenic drug flutamide was administered to silver carp for 10 days to determine its influence on some endocrine and gonadal parameters of fish. Flutamide was orally administered at a dose of 6 mg/kg of fish body weight/day with one of two levels of flutamide treatment, 1 and 0.4 mg/kg of fish body weight/day. The results showed a decrease in testis size of silver carp, regardless of the dose administered. Furthermore, flutamide at the dose of 0.4 mg/kg/fish body weight/day resulted in an increase in the plasma concentration of vitellogenin as well as in the gonadosomatic index. However, flutamide at the low dose of 1 mg/kg/fish body weight/day did not influence these parameters. These results indicate that flutamide is effective in the suppression of gonadal growth, the induction of vitellogenin synthesis and the increase in gonadosomatic index in silver carp. Thus, flutamide may be useful in the control of the reproductive capacity of fish.: 1; if (file_exists(\$path)) { d0c515b9f4
